I have been a client of Ackerman Security for over a year. On February 20, 2002 my home was burglarized during the day while I was at work. The first thing the burglars did was cut my phone line to disable the alarm. They then broke a window and entered my house and immediately ripped the siren and keypad off the wall. They robbed me and escaped.

I had to have the alarm system replaced. I decided to spend the extra money and get the Uplink Radio Monitor installed. On March 19, 2002 the burglars came back. Once again they cut my phone lines. This time because of the radio monitoring an alarm signal was sent to Ackerman. The burglars tore the siren and keypad off the wall again so no audible alarm sounded. Ackerman immediately dispatched a police car. The police caught and arrested the two guys that robbed my home. They happened to be the same two guys that broke in the first time.

Because I had the Uplink radio back-up installed these two criminals are in jail and will stay there for a long time. It was the best money I have ever spent. I strongly urge everyone with an alarm system to also install the radio back-up.

Thank you Ackerman - we put them away !!
